## PROJECTS

- **Trustee(Loan Management System )**
  - **Frontend** : Vb.net
  - **Backend** : Microsoft sql server
  - **Purpose** : The primary purpose of Loan Management Software is to automate the workflow of a lending agency . This includes but is not limited to maintaining compliance and preventing human error during loan processing.
  - **Aim** : Loan is a values-based company. All business decisions are made in a manner consistent with our Core Values and Code of Ethics.
- **Canteen Management System**
  - **Front end** : web programming
  - **Back end** : php ,mysql
  - **Purpose** : Canteen Management Software is an automated software which enables all the activities of the canteen and maintain a detailed account of food served at the canteen.. It allows secure and speedy transactions. It helps management to handle the users by reducing the waiting time for the customers.
  - **Aim** : Canteen management system is to provide fast services to their college students, Staffs etc. Usually, People have to go to canteen and order the foods and they have to wait in queue for a long time to get the orders, But with the help of this you just have to follow a very simple process to order your stuffs.
